

Bio

Sugar Fed Leopards (SFL) are a blazing sextet, conceived at the nexus of classic pop and disco. With smoking hot costumes, sweet harmonies, tight dance routines and a cranking rhythm section, Sugar Fed Leopards have been breaking a disco-sweat for four years.

In January 2015, SFL launched their debut album 'Sweet Spots' to a sell out crowd of hysterical fans at Howler in Brunswick, Victoria. The band has gone on to perform with artists such as C.W. Stoneking and Sampa The Great, toured internationally and nationally, including festival spots at Boogie, Woodford and Falls.

In 2016 SFL worked hard on their core strength, emerging with new moves, new fashions and a new album 'Take You Out Tonight' (released April 2017) which was made feature album on both PBS FM and 3RRR FM.

Quotes

"Sugar Fed Leopards is a prowling six piece whose gratifying grooves compel me to grab a pair of flares. Sugar Breath's alluring lead, combine with the backing vocals radiate 70s disco funk vibes, while a sexy sax solo cements the groove. The enthused energy of the Leopards will definitely leave you purring for more."
